Better Design • Better Environment

CKS is the latest storage-based furniture designed for senior executive office room environments.

CKS是以之件式儲存系列為基礎，配置行政辦公桌或會議桌的設計理念，為高級行政辦公環境提供獨特的選擇。

At POSH, we aim to reduce the impacts on our environment for now and in the future. We offer different kind of sustainable material that have been identified to have a reduced environmental impact including 100% recycled fabric, 100% biodegradable fabric and 100% compostable fabric.

在科譽，無論現在或未來，我們一直倡議環保；重點減低對環境的傷害，我們選定一系列的持續再生物料：包括百分百循環再造、百分百自然分解及百分百生態分解的布料。

100% recycled fabrics are manufactured, with increasingly sustainable manufacturing processes, from 100% post-consumer recycled polyester fibre without back-coating, to allow recycling.

百分百循環再造布料以百分百可回收的聚酯纖維製造，其不加塗層的單一纖維可增加其持續性循環再造機會。

100% biodegradable fabrics are derived from starch-based agricultural products such as corn and rice. The starch portion of these crops are converted into sugar and fermented to produce lactic acid which is then processed to form polylactide (PLA). PLA polymers are then spun into fiber.

百份百生態分解布料以澱粉為基材，取材於玉米和大米所製成的可作生態分解布料。這些農產品的澱粉部分可透過分解變成糖分及經過發酵過程產生乳酸(PLA)。然後以PLA 聚合物轉化成纖維組織製成布料。

100% compostable fabrics are manufactured from wool of New Zealand. Wool is a completely natural, renewable and sustainable resource. All compostable wool fabrics are dyed using the most environmentally-friendly dyestuffs which are completely metal-free and have no contamination issues when discharged to sewer.

百分百自然分解布料選用產自新西蘭的羊毛布料。羊毛是一種完全天然、可持續再生的資源。科譽選用的羊毛布料均以最環保的無金屬染料洗染。由於不含金屬，當物料被丟棄時，將不會造成任何污染的生態問題。

POSH furniture is produced in manufacturing facilities whose processes are certified to ISO 9001 & ISO 14001 quality standard. Today, environmental sustainability is part of our culture. It is not a project, it is what we do.

科譽傢俱由通過ISO 9001質量管理體系認證及ISO 14001環境管理體系認證的工廠生產。今天，環境的可持續性是我們文化的一部分。這不是一個項目，這是我們正在做。
